🛠️ Skills

Technology

Python

My "native" programming language, I've worked with it for over 2+ years. I have mostly used the **Django** framework to design backend applications. Have used libraries such as **pyspark, pandas**, etc for data processing.

JavaScript

I have used Javascript mostly for frontend applications with **Vue.js** framework.

Other Skills

Java, C, C++, AWS, Git, MongoDB, SQL.

Work experience

Software Engineer

Jio-Haptik *(Nov 2021 - Present)*

Responsible for Backend Development for the **Interakt** Team using mostly **Python & Django**.

Software Engineer

Compile Inc. *(Jul 2020 - Oct 2021)*

- Developed ETL pipelines to consume data related to US healthcare using **Python & Spark**.
- Part of the team to develop an in-house ETL framework based on spark aiming to reduce development time.
- Web app to **reflect schema of SQL tables** present on Snowflake for customers using Python & Django.
- Collaborated to create a **YAML to SQL parser** which helped in empowering customers with little to no SQL knowledge to run queries directly on the data.

Backend Developer Intern

Saarthi.ai *(Dec 2018 - Jan 2020)*

- Developed a backend **pipeline to train ML models** and use the trained model for predictions.
- Developed an **analytics dashboard** using Elastic Stack, to quantify chatbot's usage & behaviour metrics.
- Developed backend side of **Organisation Management Tool**. Primary tasks of the tool included the assignment of roles and permissions.

📚 Education

Bachelor's Degree in Computer Science & Engineering

Indira Gandhi Institute of Technology [2016 - 2020]
